

# How to View Database on PyCharm for Professional version of Pycharm

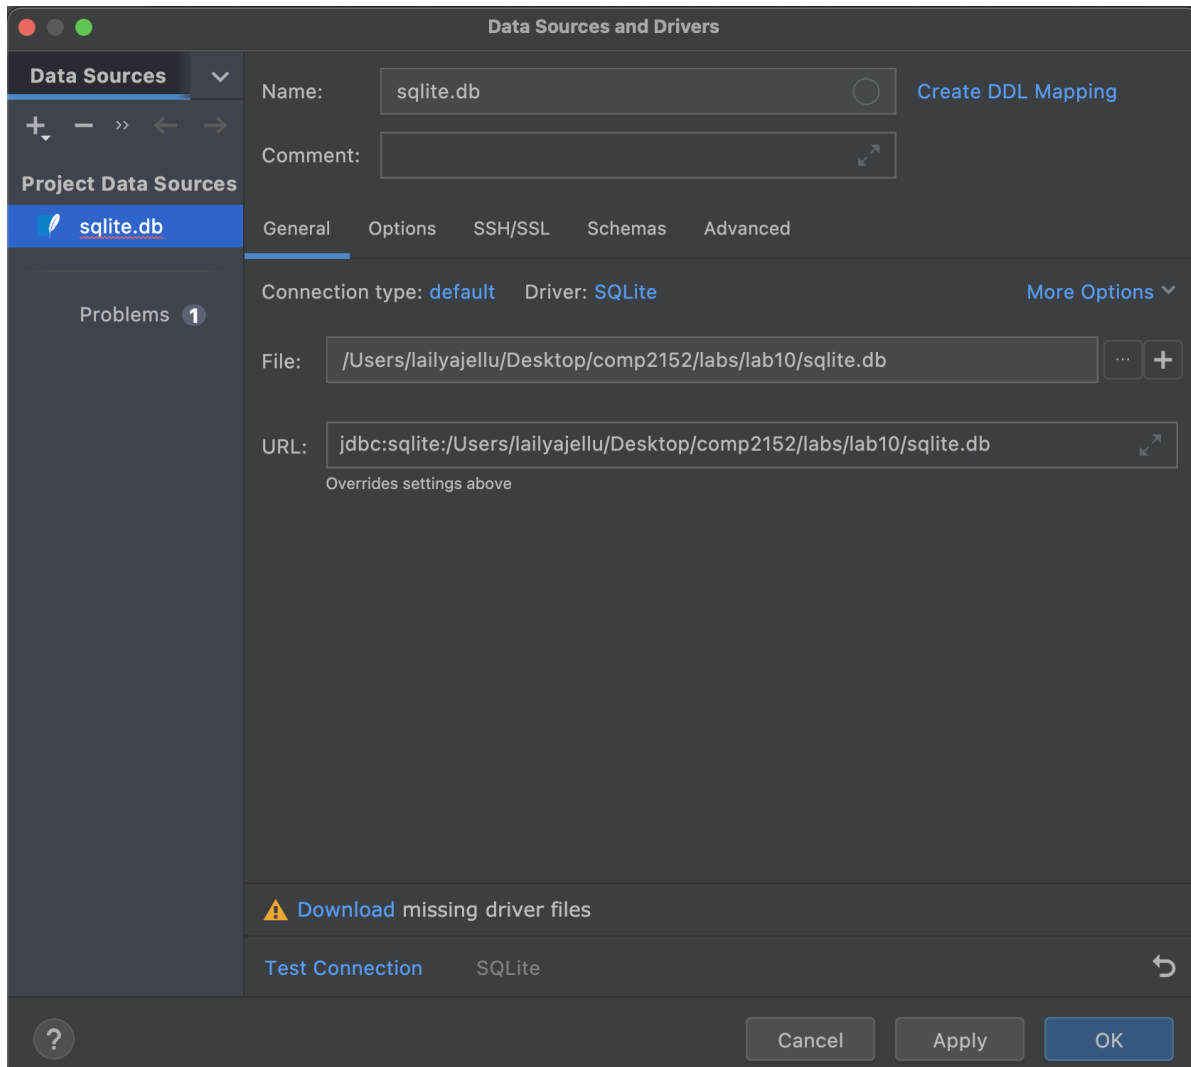

1. Go to View -> Tool Windows -> Database

2. Go to + -> Data Source -> SQLite

3. Change the value of the text box **File** to: **comp2152/labs/lab10/sqlite.db**

4. Download any missing driver files
5. Press OK
6. Go to main -> tables -> demo -> and then Click on the chart symbol in the top bar
